

CRITERIA FOR ENTERING OKLAHOMA RACETRACK

No horse shall be allowed to enter an Oklahoma racetrack unless it has had a Coggins test conducted within 12 months and with a negative result. The test record may be a copy of the original Coggins test. Record of the negative test for a race horse entering a race shall be the original VS Form 10-11 or an approved electronic version attached to the registration papers of the horse and conducted within 12 months of the race in question. The trainer of the race horse is responsible for insuring that a negative Coggins test result is in the racing secretary's office as required by this rule. Failure to comply subjects the Licensee to disciplinary action.

Attached are important updates that concern all Oklahoma horsemen transporting and racing horses at Oklahoma racetracks.

- Oklahoma racetracks will begin enforcing immediately the following rules; All horses entering a racetrack from outside the State of Oklahoma will be required to have a current Health Certificate (written within 30 days) and current negative Coggins test for the horses arriving. The Health Certificate must have the correct departing and arriving location. This long standing requirement is for horses traveling Inter-State only.
- All horses being transported within (Intra-State) the State of Oklahoma are NOT required to have a Health Certificate. But, they are required to have at minimum, a copy of the horses' current negative Coggins test. This is a long standing law, and is currently being enforced by law enforcement. All horses arriving at the stable gate will have to have a copy of their current negative Coggins test with them. Telling stable security that the Coggins is in the Racing Office will NOT work. A copy of the negative Coggins test MUST accompany the horse(s) at the stable gate.

THE ABOVE CRITERIA MUST BE MET FOR THE HORSE(S) TO ENTER AN OKLAHOMA RACETRACK
